

EMERGENCY PLANS

Background

The Division has an obligation to protect and ensure the health and safety of students and staff in the event of an emergency or disaster situation. It is therefore necessary to have a Division Emergency Operations Plan and School Emergency Operations Plans to create a state of preparedness beyond normal procedures.

Definitions

An *internal emergency* is defined as an emergency which originates within the school and may include, but not be limited to, fire, structural collapse, bomb threat, or dangerous chemical spill. It may also include, but not be limited to, the threat of, or presence of a dangerous intruder.

An *external emergency* is an emergency which originates outside the confines of the school building and may include, but not be limited to, severe weather conditions such as a tornado, or dangerous chemical release.
