

INTERNATIONAL STUDENT APPLICATION GUIDELINES

INTRODUCTION:

In our rapidly changing world, the demands for quality education and English language instruction are increasing significantly. Many international students, especially those from Japan and Southeast Asia, recognize that Alberta offers quality educational services, and they are interested in accessing these services. When international students study in Alberta, they benefit by obtaining highly respected credentials, which are accepted at post-secondary institutions worldwide. They also learn about the Canadian way of life and develop a better understanding of Canadian culture.

In addition, through contacts with these international students, Alberta students have an opportunity to get to know students from other cultures and to establish friendships with these students. It is through such international linkages that joint activity on worldwide issues can be achieved.

Elk Island Catholic Schools actively supports the Alberta Education policy.
